

**For Immediate Release**

***Real de Santa Ana Breaks Ground!  
Todos Santos' Newest Residential Resort Community  
is Now Under Construction.***

August 27, 2007 marked the official ground breaking and Phase 1 of the construction of 220 homes in the Real de Santa Ana resort community, an exciting start to the visionary Santa Ana family master-plan. The first phase, known simply as "Todos Santos," will soon become an extension of the history and culture of the town itself. Years of careful planning by the Santa Ana family has culminated in a unique development plan, offering 3 and 4-bedroom residence options from 1,200 to 1,800 sq. ft. with prices starting at \$190,000 USD.

Within the gated community, each lot provides a minimum of 5,300 square feet, offering plenty of space to call home. Lush landscaping comprised of bougainvillea, flowering vines and fruit trees and a variety of palms will enhance the feeling of living in a tropical oasis. The first ten homes will be ready for occupancy in March of 2008. Five have been sold, three will remain model homes, and two of the initial ten are still available.

Envisioned by Dr. Santa Ana and designed by Juan Manuel Velasquez of Velasquez Asociados, Real de Santa Ana will soon become a part of the Todos Santos community — a place where you can savor the flavors of rich Mexican traditions, immerse yourself in a warm Baja oasis and slow down long enough to experience what truly matters in life...

For centuries, the tropical oasis of Todos Santos has nurtured those who seek a more tranquil existence — one closely connected to the rhythms of nature. Within the Real de Santa Ana resort community, you'll become reacquainted with your senses while immersed in the healthy lifestyle that has existed since the first pioneers arrived.

Your home is walking distance from the colonial heart of the pueblo where you can enjoy fine dining, great shopping, entertainment, the local fish market offering the fresh catch-of-the-day, plus the local produce vendors where you can find numerous varieties of organic fruits and vegetables.

The subdivision of Todos Santos is designed to appeal to those seeking to own a home in a tranquil resort community close to nature, with all the modern services and amenities you expect including meticulously maintained landscaping, 24-hour security, concierge service and wireless communications.

***"Become part of the Todos Santos community and enjoy the rich flavor of a tropical Baja oasis."***
